

Database

M. Bennett, D. Jaffe, E. Bosze

are the pioneering users of the ORACLE data base, which was provided by **Mark Pollack**.

Mike B. is responsible for the format and content of the MVD section.

Java based JDesignerPro interface to Oracle:

A screenshot of the JDesignerPro System Java applet window. The window has a menu bar with "File" and "Help". Below the menu bar is a navigation bar with tabs: "back", "Welcome", "Si Main" (selected), "CV", "IV", "Guard Ring", "V Depletion", "Bad Channels", "Misc.", and "Si Strip". The main area is titled "table simain" and contains a form for data entry. The form includes fields for "Serial Number" (with value "1528-17"), "Batch Number", "Date Received", "Grade" (with value "NDATA"), "Type Of_coating" (with value "SILOX"), "Type Of_detector" (with value "SHORT"), and "Meas Comment". There are also buttons for "And" and "Or". A list of entries is shown on the left, with "Total Entries: 100". The list includes entries like "1451-17", "1451-19", "1451-2", "1451-20", "1451-21", "1451-22", "1451-24", "1451-3", "1451-7", "1451-8", "1453-4", "1527-10", "1527-11", "1527-12", "1527-13", "1527-14", "1527-16", and "1527-17". At the bottom, there are buttons for "Apply", "Reset", "New", "Copy", and "Remove". The window title bar says "JDesignerPro System" and the status bar says "Java Applet Window".

The **silicon strip** database is completed and in use !
Kapton cable and **C-cages** databases will follow soon.
